GOODTRON

# About Goodtron Electronics

Vista, California — Manufacturing Facility

## WHO WE ARE

Goodtron Electronics LLC is a California-based electronics manufacturer specializing in SMT prototype assembly and low-volume PCB assembly — delivering reliable, flexible, and cost-effective solutions for engineers and innovators.

Located in Vista, California — San Diego County

Purpose-built for rapid prototyping and low-volume production

## WHO WE SERVE

Hardware Startups

Electronics Engineers

PCB Designers

Product Development Teams

# Equipment & Manufacturing Capabilities

GOODTRON

**Yamaha YS12**  
SMT Pick-and-Place Machine

**Yamaha YS12F**  
SMT Pick-and-Place Machine

**XPM2 Reflow Oven**  
Industrial Tunnel Reflow System

## SMT Assembly

Yamaha YS12 & YS12F  
precision placement

## Reflow Soldering

XPM2 industrial  
tunnel oven

## Prototype Builds

Fast engineering  
validation runs

## Low-Volume Production

Scalable small-series  
manufacturing

GOODTRON

# Services We Offer

## SMT Assembly

High-precision surface mount technology using Yamaha YS12 / YS12F machines

## PCB Assembly

Complete PCB assembly from bare board to finished, tested product

## Prototype Builds

Rapid prototype assembly for engineering validation and hardware development

## Low-Volume Production

Scalable production runs designed for startups and small series launches

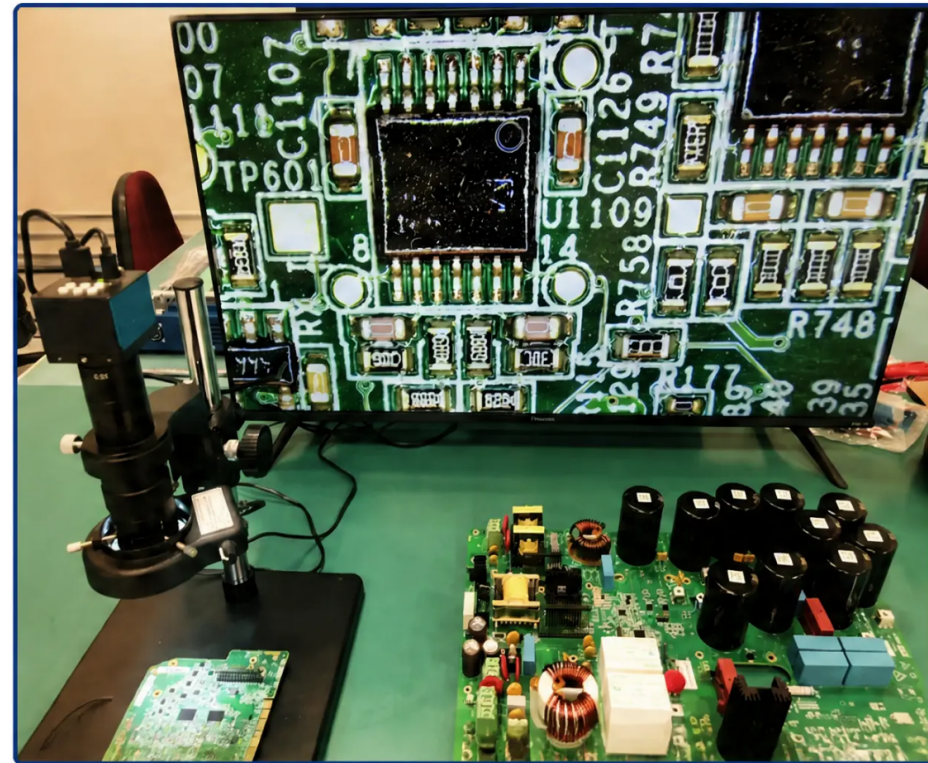

## Engineering Support

Hands-on technical guidance from experienced engineers throughout your build

## Quick Turnaround

Fast response times and rapid delivery to keep your project on schedule

PCB inspection with digital video microscope — quality at every stage

# Why Choose Goodtron

## Precision PCB Inspection

Quality control at every step

### Fast Turnaround

Quick delivery to keep your project on schedule

### Responsive Communication

Direct access to engineers and support staff

### Flexible Manufacturing

Adaptable processes from prototype to production

### Competitive Pricing

Cost-effective solutions for startups and engineers

### Customer-Oriented Service

Focused on your success at every build stage

### Prototype-Focused Production

Purpose-built for low-volume and prototype work

### San Diego County

Conveniently located in Vista, CA for local access
